**LEVITON**

***Featured New Product***

## **WIRELESS SENSING SOLUTIONS**

Leviton's family of **Wireless Occupancy Sensors** are affordable, easy-to-use and easy-to-install solutions that allow wireless lighting control in virtually any building.

**Why Go Wireless?** Going wireless is an affordable, simple-to-install and easy-to-use option for any project—new or retrofit. Using Leviton's Wireless Products greatly decreases the intensive time and significant labor costs of running wires—saving you up to 50% on installation expenses while improving overall profitability and efficiency.

**Serving Alabama, Georgia, Indiana,  
Michigan and Tennessee**

# Productivity Six Pack

Product Ideas that save you time and money

## Boost Productivity with These Time— and Cost—Saving New Products

### Leviton's Wireless Sensing Solutions

#### An Ideal Solution for Retrofit Applications

- The occupancy sensor detects motion; keeping lights on while the space is occupied
- The Integrated Solar Cell powers the Occupancy Sensor using available room light—no batteries needed
- Provides energy savings on top of labor, material, and time-savings, with no additional wiring or external power required

### Energy Saving Fluorescent Ceiling Lampholder

#### Ideal for Closets, Garages, and Utility Rooms

- Designed to reduce the risk of fire in closets, can also be utilized in open spaces
- Works with a standard wall switch
- Easy to install with pigtail leads and knockout holes for multiple box configurations
- Available with and without 13W lamp and lamp guard

**In Stock**

### Fixture-Mounted Infrared High-Bay Sensor

#### "Install and Forget It" Lighting Control

- Quick and easy installation
- Snap-in install feature
- Convenient LED status indicator—green LED provides confirmation that the occupancy sensor is functioning properly
- Comes with 3 replaceable lenses: 1 for fluorescent high-bays; 1 for fluorescent low-bays; 1 for aisles
- Zero-crossing circuitry for greater reliability

### New Tamper Resistant Receptacles

#### Leviton makes it easy to comply with 2008 NEC

- Shutter mechanism inside the receptacle blocks access to the contacts unless a 2-prong plug is inserted, helping ensure hairpins, keys, etc., will be locked out
- TR symbol on residential receptacles assures they meet the 2008 NEC requirement
- Heavy-duty construction offers long, trouble-free service life

**In Stock**

### Vizia RF+™ Lighting Controls

#### Most Advanced Statement in Home Control Technology

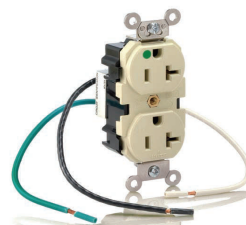

- Streamlined collection complements a wide range of decorating styles
- Delivers the performance of a high-end lighting control system at a moderate cost
- All-digital design with an elegantly simple user interface
- Built-in Z-Wave® wireless technology

**In Stock**

### Lev-Lok™ Modular Receptacle System

#### Simple & Easy to Use; Yet Provides Secure Connections

- Wiring module locks and latches to the receptacle
- Wiring module ships with protective cover preventing debris from entering contacts until receptacle is attached
- Includes factory-installed circuit ID label
- Constructed with impact-resistant thermoplastic nylon cover and body
